Greetings in the Mars-day of the Lord ... the day of the love of God ...

Because God is Love ...

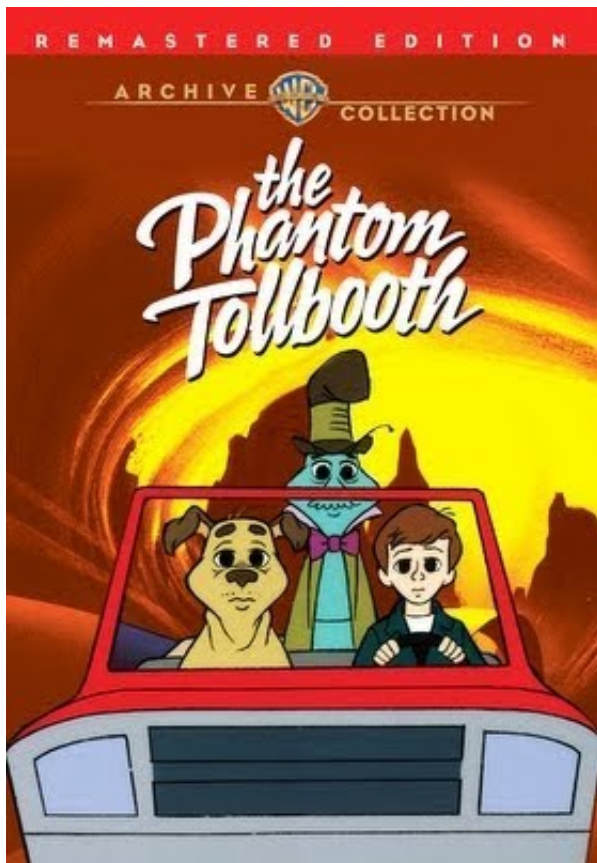

The World is ... like is its Consciousness ... Dark ... Evil ... War-like ... Humble ... Lovely.

I Giovanni have lived one of the ... Best Educations a person can have.

I born in Venezuela (South America) ... therefore I born inside a Spanish speaking Country ... I enter in School at the age of five ... and began to take lessons in Spanish and Italian ... from the age of twelve. I complete Italian studies at elementary level in Venezuela and then continue until the end of the Degree in Mathematics in Venezuela, then in Italy take the Italian Degree ... both in Mathematics. At the Age of sixteen I Study the "Book of Revelations" and in 2009 I unveil the mystical number ... related to Human DNA, then I publish the Book of Apocalypse explained ... in Italian.

In the years of the first degree ... I get the Blessing of the Russian School of Mathematics, because the intent of Communist to conquer the country, which I consider a mistake, which is the actual situation ... Therefore I study with many Books originally printed in Russia ... translated to Spanish, French and English ... like companion to University Books, which belong to the System applied in US Universities fruit of US American Professor or European like Lars Ahlfors or some "[Martians of Science](#)", for the Degree in Mathematics in UCV, Venezuela. Logically the TV and System is close to the US "System" ...

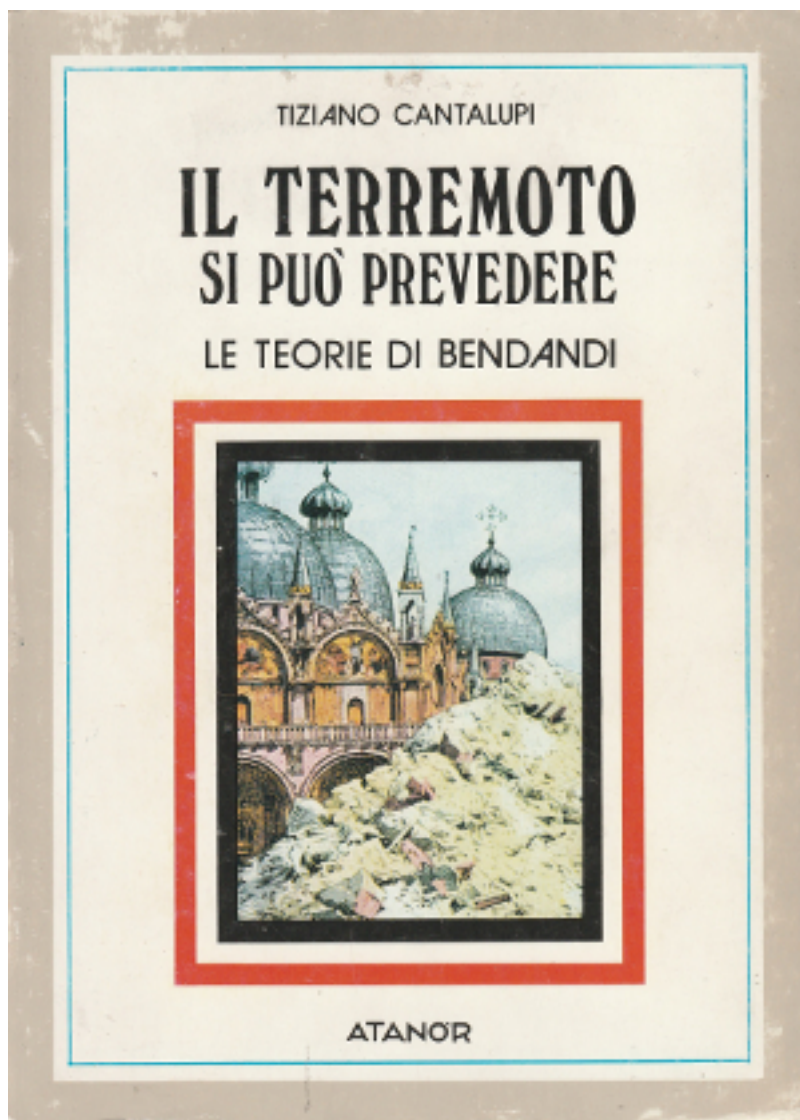

I ... by example ... watch the Movie for Children ...

Any person must watch this movie ... One of the examples between the "Kingdom of Numbers" and "the Kingdom of Words" is ... the fact to avoid to enter in a "Bog" ... from where you cannot leave easy ... and the way to leave is using "Shakespeare" Quotes, Mathematical Formulae ... and High Speed of Mind.

In a mode completely independent ... I began to read books from Cambridge and Oxford University Press before to enter in University as well books from Göttingen like Edmund Landau books or David Hilbert books ... in German. I enter in Judo Dojo at the age of sixteen ... and take the Black Belt in 1984 ... and this open me to Eastern Philosophies ...

About Italy ... in the University ... generally the Books are related to the Russian Schema ... some influence from the French School of Mathematics ... but the Best books ... are not available in the University ...

Also Books in Arabic and Greek as well in Russian ... I have in my Library ... may be only in Digital.

Please Understand that ...

There are a Limit for the Concepts you can learn ... on the Planet from persons and books on the Planet. When you traverse such Line ...

93 There comes a time when man passes beyond the pale of that which his own experience patterns can teach him. 94 Then the immortals stand ready, 95 even as they do while he is still learning the lessons of earth, 96 to help him expand in every facet of his endeavors, 97 whether human or divine. 98 Progress is never governed as much by what man desires to do or to be, 99 or even by what the world has to offer, 100 as it is by his realization that he can be all that God wants him to be, 101 if he will just accept that simple thought. 102 Seek not, then, the bizarre; 103 rather be content to be a good man or a good woman. 104 Place yourself in the hands of God, 105 in the hands of the Father of all, 106 who cares for the birds of the air and the fragile flowers that glow for the breath of a moment. -- Power.

There are concepts ... like Humility ... Forgiveness ... Strength ... Power ... Honesty ... You cannot learn in University and neither in the Churches ... neither in the "Bad Wolf World" ... You can learn only from Heavenly Sources.

The Illusion of 007 Movies ... May invite to consider that the World is only valid for "Killers" ... that need to open their eyes to avoid to be killed ... But this is an Illusion. In case you want to see Movies ... in the days of 1997 ... when DVD was available in Spain and not in Italy ... remember the World is Just ... The World was divided in DVD Zones ... Zone 1 ... the US ... Zone 2 ... Japan and Europe ... Zone 3 ... Asia ... Zone 4 ... South America ... These borders were dissolved thanks to the dedication of John DVD (He was arrested at the age of 17 years old) ...

Therefore in those days ... "Was not possible ... to watch a Movie you want" ... "in the place you want ..."

What about "To Study what you want?" ...

In some countries ... this is possible ... in other countries is not possible.

In some countries ... You want to be an Astronaut ... Well, you can ... You want to Study Physics, you want to be a Police ... etc.

Is Possible ...

One World ... One Education?

The desire of some persons ... that comment about to Strengthen the US Educational System ... considering ... All the World need a better Education.

About this point ...

- Some need ... books ... because have few or no books. (African continent)
- Some need to recover their books ... because lose that books and have books with Political Content (Communist Countries like Venezuela, Cuba ...)
- Western World ... Have books ... some have Atheist content ... I mean based on Science with no God ... and that books need to replaced.

Therefore ... we need an Alignment of Science ... at the same time we feed the Mind ... considering they got food and have Health.

Therefore if

- Einstein Theory is Wrong ... and ...
- There are a "Geometry of Time" ... and
- There are a "Missing" ... Mathematics of Time ... very Harmonic ... and based on Natural Numbers.

We need New Books ... and New Printed Material ... New Educational Courses based on better content.

Therefore ... first ... You need to use what is available ... and remember to ... forget if what you learn is incorrect.

From some point of view ... If Einstein Theory is Wrong ... and Time have a growing speed ... and we do not have such Science ... What Students will study? ...

Students ... will study what is available ... but not in Laziness mode.

A Scientist is always ready to change its perspective and enlarge The Measure of its Wisdom=Wise+Domain

Now ... some may suffer about "The Lack of Time" ... We have "Time" ...

We need to stop here ... before to begin to explain ... that Time is Energy and how to extend that Energy.

The idea here is ... to extend ... the Time of persons and Unite the World ...

... I never talk about ... "The Mastery of Time" ... which any Saint have and you must learn.

People must remember its Angelic origin ... as well discover ... its Angelic Name. I know mine and is not "Giovanni" is different ... is more simple.

Thanks,Dr. Giovanni A. Orlando
